

# Lesson Plans

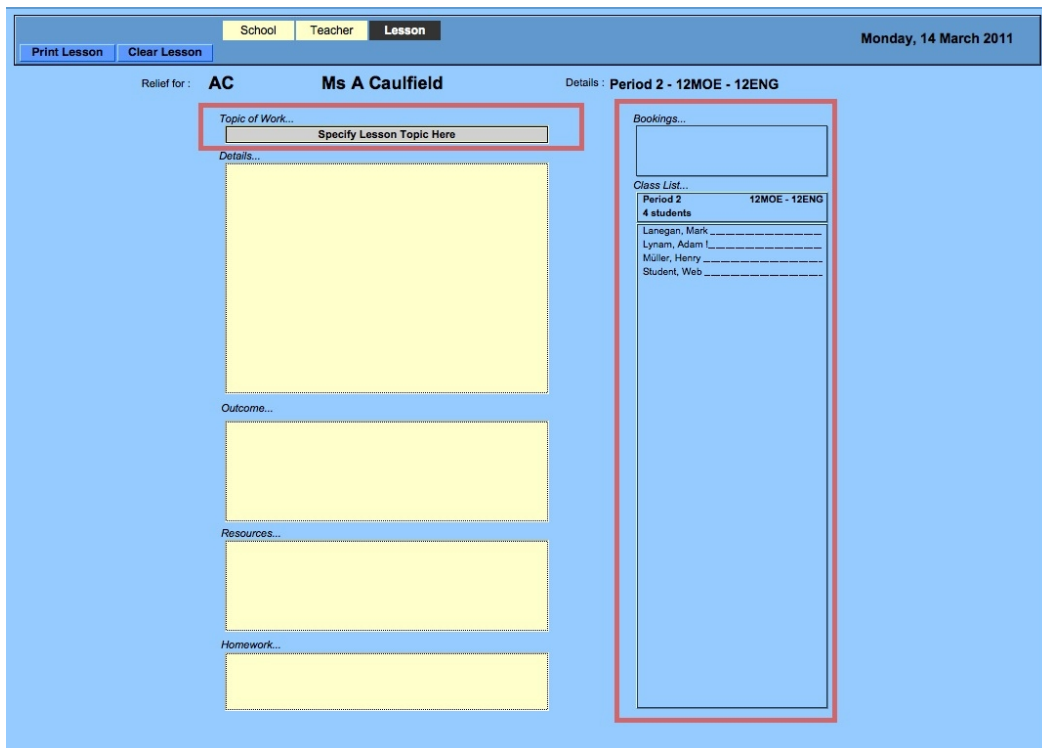

Enter lesson plans and print other teachers lesson plans

Under Teachers → Events Planner → Teachers select the day and the period you want to write a lesson plan for. You will notice your personal timetabled subjects will appear against the relevant periods for you.

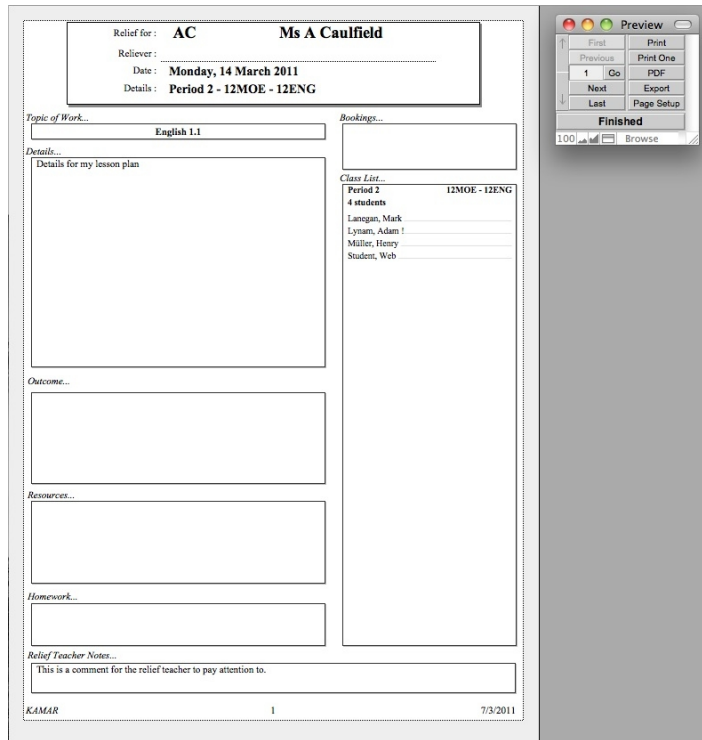

You can only print other teachers lesson plans you cannot edit them.

KAMAR will display a summary of your bookings and also you class list for that particular period you have selected.

The printout will have all of this detail on it as well.

### How to print other teachers lesson plans

Under the teacher tab, press print. Your teacher code will appear by default. You can change this to any other teacher code if you need to. Even print more than one teacher code by putting a comma between each code.
